---

## SUMMARY

My name is **Patrick Juan** and I'm an **Informatics Engineering** graduate from **Brawijaya University**. I have a passion in designing user interfaces on mobile and web apps. I'm proficient at prototyping using Figma and realizing designs into web pages using HTML, CSS, PHP, and JS frameworks. I am also capable of using Kotlin and XML to make an android app interface design.

---

## EXPERIENCES

Bangkit Academy by Google, GoTo, and Traveloka 2023  
Mobile Development Learning Path

- Completed Dicoding Courses on Android Development and UI/UX Design
- Fulfilled all of the Soft Skills Training
- Finished a Capstone Project and developed a healthcare-themed app with a team

Informatics Engineering Student Executive 2022 - 2023  
Director General of Human Resource Development

- Providing events and work programs for student to channel their interests and non-academic talents
- Monitoring the course of the ongoing work program in the Human Resource Development Department

Informatics Education and Learning for Society Enhancement 2022  
Steering Committee

- Organizing and overseeing the entire orientation program
- Serve as the main point of contact between various stakeholders involved, including faculty, student organizations, and new students
- Monitor the progress and gather feedbacks from participants and facilitators

Reunite of Magnificent Informatics 2022  
Steering Committee

- Organizing the tournament, including creating a detailed schedule of events and setting up brackets
- Coordinate with teams, referees, and spectators to ensure the tournament runs on time
- Promoting the tournament to attract participants and spectators

Faculty of Computer Science at Brawijaya University 2022  
Object Oriented Programming

- Tutored, assisted, and graded more than 30 students in class for object oriented programming using Java
- Guided students to solve problems using theory that has been taught
- Opened discussion room for students to ask things related to the class

Informatics Education and Learning for Society Enhancement 2021  
Staff of Events Division

- Responsible for planning, organizing, and executing events and activities for IF-ELSE
- Developing and implementing event plans and timelines
- Coordinating logistics, such as transportation, accommodation, and on-site setup with other division
